

Marty,

Finally! After our initial contact a few years ago, I guess a combination of patience and persistence finally pays off. Following are the two signed orders for the scrubber/sweeper and the walk-behind sweeper. In addition, we would like to initiate the PM program on a quarterly basis, as outlined in the note sent by James Barnett. Please coordinate the delivery of the equipment and the maintenance program with Gary Throw, our Warehouse Manager. Thanks again for visiting us and sharing your knowledge of the options to consider in maintaining our warehouse floors. Have a great holiday season.

Regards,

Gary Chess
