

Super Concentrate Gym Mat Cleaner

- ✓ Neutral pH
- ✓ Nontoxic
- ✓ Biodegradable
- ✓ Fragrance Free

Bulldog Mat Cleaner is a neutral pH detergent designed for use in the Bulldog Floor Scrubber to effectively clean rubber matting and concrete flooring without leaving harmful residues behind. Formulated in partnership with the US Environmental Protection Agency, Bulldog Mat Cleaner is an eco-conscious detergent that is powerful enough to deep clean floors while remaining skin-friendly. Non-toxic, fragrance free, and dye free, the Bulldog Mat Cleaner is ideal for use on surfaces that frequently come in close contact with human skin, unlike conventional formulas that often rely on using ingredients with poor human health profiles. According to the US EPA, conventional formulas may use common solvents that, once absorbed through the skin, can affect the liver, kidneys, lymph and blood systems. The select ingredients in Bulldog Mat Cleaner make it strong enough to remove stubborn grime with ease yet gentle enough for human contact.

BENEFITS

- Reduced Shipping Costs.
- Standard uniform results.
- Takes up less storage space.
