Bulldog Wand Attachment

Clean between restroom partitions, around equipment, and in hard to reach areas with the Bulldog's optional wand attachment. This key feature makes it fast and easy to clean in tight areas where a floor scrubber would normally not fit.

See why thousands of gyms have invested in a Bulldog Scrubber

Bulldog Floor Scrubbers work on several styles of gym flooring, including rubber tiles, horse stall mats, diamond plate rubber mats, jigsaw mats, and martial arts style mats. They work on inlayed wooden weightlifting platforms, concrete, and tile too. **Contact us to find out if the Bulldog will work for your application!**

How to Clean 10X Faster & Increase profits by over \$6000!

Studies show gyms lose 5% of members monthly to turnover. A client smells a locker room stench, decides in minutes that your gym isn't worth \$179/month, and leaves. Studies show that 10 members quit silently for every member that complained. Halve turnover to 2.5% with the Bulldog Scrubber, adding \$6,012 in annual profit. Clean 10x faster than mopping for a fresh gym. Show you care. Focus on keeping customers, not just chasing new ones.

Now factor in how much money in labor and time you would save.

What our customers are saying:

Amy W., CrossFit Danbury

Highly recommend this floor scrubber to anyone in need of cleaning a large area of flooring in a short amount of time and getting great results. Also working with all the representatives at Factory Cleaning Equipment has been fantastic. They are very professional, knowledgeable and extremely responsive. It is great to know that if we have any questions they are just phone call away with answers

Trey W., Tolland CrossFit

Received our Bulldog a year ago and use it every day to keep our gym floors looking good. Our customers are always commenting favorably on how amazingly clean our floors are versus some of our peers

Curtis M., CrossFit SCV

Ordered our Bulldog scrubber and it was shipped the next day. Financing was easy, assembly was easy and I had the entire gym cleaned within a half hour of opening the crate. We couldn't be happier with our scrubber - absolutely recommend FCE and the Bulldog scrubber

Michael C., CrossFit TurnPoint

I've been in business since 2013. We started with two mops and 2 buckets. The amount of work and realization that we are just spreading the filth lead us to buying a cheap floor scrubber that didn't remove the filth and took hours to dry. Let me break this down for all you owners. If you want super clean floors that customers notice and cutting your clean and dry time. Make the investment
