

EVAPO RUST™

Keep it Clean...and looking new with **EVAPO-RUST™**

EVAPO-RUST™ is a two-time award winning technology that removes rust without any scrubbing, harsh acids, or harmful effects to the environment! Winner of an R&D 100 award of Cleaning Technology, and listed among the Top 100 Inventions for Outstanding Technology in Industrial Cleaning, this product is amazingly green-friendly. Free of damaging VOCs, solvents, acids and bases, Evapo-Rust™ is non-corrosive, non-toxic, non-flammable, biodegradable and sewerable.

Evapo-Rust™ easily cuts through tough rust to help metal look brand new again. Light rust is removed in as little as five minutes and Evapo-Rust™ blasts through extremely heavily rusted parts overnight. Simply rinse and re-dip the parts for up to two weeks of extended rust inhibition. It is non-corrosive to steel and does not harm brass, copper, aluminum, gold, lead, titanium, steel, cast iron, solder points, vinyl, plastic, rubber, silicone, glass, cork, or wood.

Instructions:

Pre-clean item if covered in heavy oil and dirt. Rinse item and immerse fully in Evapo-Rust™ for 20 minutes. Check progress periodically. Once rust is removed, rinse item with water. To prevent re-rusting, simply re-dip into Evapo-Rust™ solution and allow to dry. Deeply rusted parts (5mm or deeper) may require overnight soaking. It's as simple as that.

Evapo-Rust™ can be re-used application after application until performance drops off. When ready to dispose of spent Evapo-Rust™, only the iron content of the solution will dictate disposal method. In most cases, it can be safely put down the drain.

Note: Tool alloy steel and other high carbon steels will have a slightly darker finish after de-rusting with Evapo-Rust™.

Caution: Rusty items with edges may become sharp once de-rusted. Handle with caution.

Keep it clean... with Evapo-Rust™.

SECTION I Material Safety Data Sheet May 20, 2003

Distributor's Name Biosolutions, LLC Emergency Telephone Number

1811-E Hayes Street 616-844-3471

Grand Haven, MI 149417

Information Number 616-846-1210

SECTION II - HAZARDOUS INGREDIENTS / IDENTITY INFORMATION

As outlined in CFR Title 30, Part 47, SUBpart H, the precise composition of this mixture is proprietary information. All substances in this product are listed on the US TSCA inventory or are otherwise exempt.

HMIS RATING - HEALTH - 1, FIRE - 0, REACTIVITY - 0, PERSONAL PROTECTION - A

SECTION III - PHYSICAL / CHEMICAL CHARACTERISTICS

Boiling Point <2000 F

Vapor Pressure (mm Hg.) N/A mm Hg

Vapor Density (AIR = 1) N/A air=1

Solubility in Water Complete

Appearance and odor Amber color, mild odor

PH 6.0 - 7.1

Specific Gravity (H2O = 1) 1.02

Melting Point N/A

Evaporation Rate (Butyl Acetate = 1) <1

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

Flash Point (Method Used) None

Flammable Limits None

LEL N/A

UEL N/A

Extinguishing Media None required

Special Fire Fighting Procedures None required

Usual Fire and Explosion Hazards None

SECTION V - REACTIVITY DATA

Stability Normally Stable

Compatibility (materials to avoid) Avoid contact with strong oxidizing agents or other reactive materials

Hazardous Polymerization Will Not Occur

Conditions To Avoid None

Hazardous Decomposition Products Oxides of Carbon

SECTION VI - EXPOSURE CONTROLS / PERSONAL PROTECTION

Routes of Entry: Inhalation: Yes Skin: Yes Ingestion: Yes

POTENTIAL HEALTH EFFECTS

Eye: May cause slight (temporary) eye irritation

Skin: Prolonged exposure not likely to cause significant skin irritation

Ingestion: Single dose oral toxicity is considered to be extremely low

Inhalation: Excessive exposure may cause irritation to upper respiratory tract.

Carcinogenicity None

NTP N/A

IARC Monographs N/A

OSHA Regulated Yes

Signs and Symptoms of Exposure None

EMERGENCY AND FIRST AID PROCEDURES

Eye: Flush eyes with plenty of water

Skin: Wash off in flowing water or shower

Ingestion: If swallowed, drink two glasses of water and induce vomiting by using ipecac syrup or placing two fingers at the back of the throat. Get immediate medical attention. Do not give anything by mouth to an unconscious person.

Inhalation: Remove to fresh air

SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE

Steps to be taken in case material is released or spilled: Dike area and pump spilled material into metal containers for disposal or reclaiming.

Waste Disposal Method: Disposal must concur with local, state and federal regulations.

Precautions to be taken in handling and storage: None

Other Precautions: Store in tightly sealed containers in a cool, dry place

SECTION VIII CONTROL MEASURES

Respiratory Protection (specific type): None required

Ventilation: Local Exhaust - None required

Mechanical (General) - Acceptable

Special - None

Other - None

Protective Gloves: Recommended

Eye Protection: Protective eyewear recommended

Other Protective Clothing or Equipment: None

Work/Hygienic Practices: Normal practices
