FLOOR GRINDING SOLUTIONS

FOR A BETTER WAY OF WORKING

Husqvarna PG 690 Propane

The PG 690 Propane is the perfect choice for larger applications and its propane drive makes operation independent of electrical access. The new electric fuel injection system cuts fuel consumption and reduces the risk of freezing - while the exhaust catalyst makes for even lower emissions. Key components are sealed against dust and slurry for maximized reliability and low maintenance. It is easy to handle, tilt and operate with optional adjustable weights for extra grinding pressure. Combine your grinder with a Husqvarna propane driven dust extractor for maximum productivity.

● Output power **22 hp**
(As rated by the engine/motor manufacturer)

⊗ Grinding width **26.4 in**

FEATURES

Sealed to last

Sealed grinding head with 1000 hrs service interval. No dust or water can intrude to damage components.

Adjustable grinding pressure

The optional weights are a must-have for every professional grinder, as they allow adjusting to the grinding pressure in three pre-set positions. They also make tilting the machine that much easier.

Protected electronics

Dust sealed electrical cabinet with external cooling technology.

Hour and RPM meter

Ability to log operating hours and read the RPM of the machine.

SPECIFICATIONS

Motor

Output power **22 hp**
(As rated by the engine/
motor manufacturer)

Other

Grinding width **26.4 in**
Grinding disc speed min **750 rpm**
Grinding disc speed max **1010 rpm**
Direction of rotation **One Direction**
Number of grinding discs **3**

Dimensions

Product size width **26.4 in**
Product size height **45.1 in**
Weight **1060 lbs**
